ALWAYS GREENER  
a synthetic grass co.

Always Greener was founded in 2011 by Carrie and Brendan Parker. As they began to grow roots in their hometown of Oklahoma City, they were shocked by the exorbitant amount of water needed to start and maintain their grassy backyard. This sparked an idea they saw used widely in California: synthetic grass. It was the perfect solution for a drought stricken Oklahoma and addressed two issues: conserving water while giving customers gorgeous lawns year round.

The Parkers' creativity and love of outdoors has catapulted Always Greener into one of the most respected specialists for installation of synthetic grass for parks, homes and businesses in the Midwest. In early 2014, Always Greener expanded the company to include a unique brick and mortar showroom in Oklahoma City, allowing clients a hands-on, interactive view of products. Not everyone has a need for an entire backyard installation, but all of us want a little happy piece of green in our lives. What started as a standard doormat evolved into an entire collection of creative shapes that adorn doorways and walls across the country. These playful custom creations make the perfect gifts or unique addition to any home, office, outdoor, indoor or anywhere space.

Our company takes great pride in being a team of artistic minds constantly evolving our mat collection and innovating new ways to make the world Always Greener
